YOTTA BUS INCIDENT REPORTING

Bus Incident Reporting Flow

customizable as per your needs

Driver records the incident

The Driver can record any incident (with pictures/videos/audios) using a mobile device and submit it electronically to the Principal and Transport Dept., instantly.

Principal takes action on reported incident

Principal can review the incident report and take appropriate action. The action should be updated in the system and it will be notified to the concerned Driver and Transport Dept. automatically.

View action taken by the Principal

The Driver and Transport Dept. can immediately view the action taken by the Principal. The Driver, Principal, and Transport Dept. are always in sync.

Incident History

View/print/email current and past incident reports anytime, based on permissions.
